Administration Conf. Rm. 109

Attending: Beckum, Glapion, Griffin, Hunter, Irvin, Kawazoe, LeBleu-Burns, Marquez, Moberg, Sellitti, Winters

Item	Discussion/Comments	Outcome
<p>State of the Budget for the years 08-09 & 09-10.</p>	<p>Continued discussion regarding the ramifications of the mid year cuts for 08-09 and the implications for 09-10. Comments included that Griffin would meet with SS managers to discuss what we want to maintain and how we can continue to advocate. There was a suggestion that the group focus on planning for 09-10 – how we can be more effective with less. Griffin requested that programs provide their dean/manager with their priorities. Griffin will work to make sure all administrators are aware of the impact on the underrepresented students. To date the college has not been asked to do anything and probably won't until January and the hope is there won't be an across the board hiring freeze versus staying flexible and fill important positing so we can keep going.</p> <p>C: Espinosa-Pieb, Hawk, Murphy</p>
