

Instructor Information

Name: Salvador Guerrero

E-mail: guerrerosalvador@fhda.edu

Office Hours: by appointment, Monday/Wednesday 7:30am - 9:45am

Course Information

Title: Calculus

Location and Time: zoom on Tuesday/Thursday 7:30am – 9:45am

Website: we will be using Canvas (deanza.instructure.com)

Materials:

Text: Openstax Calculus (Volume 2 and 3) , Calculus: Early Transcendentals by David Guichard
note: both texts are open textbooks available for free online (the links are in Canvas).

Technology: computer with which to access Canvas and graphing calculator (optional, TI-84 recommended)

Other: Pencil, eraser, and spiral notebook or composition book.
note: Exams and quizzes must be completed using pencil.

Requisites:

Prerequisite: Prerequisite: MATH 1B or Math 1BH with a grade of C or better.

Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Hours: Five hours lecture (60 hours total per quarter).

Note: it is advised that you set aside two hours of study time per hour spent in class.

Description:Infinite series, lines and surfaces in three dimensions, vectors in two and three dimensions, parametric equations of curves. Derivatives and integrals of vector functions.

Assignments:

- There are a number of benefits to reading the text before class – classroom discussion becomes more conversational, you see the material multiple times, and you have time to formulate questions. You are expected to read through at least the examples of each section before class and it is a good idea to read through the proofs as well.
- Another important part of learning mathematics is to work through some exercises. **Homework** will be assigned regularly.

- There will be graded in class activities including Q&A, quizzes, group exercises, and presenting solutions most meetings.
- There will be three **exams**.
- A two-hour comprehensive **final exam** will be administered on the last day of class. The final is mandatory and must be taken at the scheduled time. Any student not taking the final will receive a grade of F.

Grading:

- **Homework** will be peer-reviewed and then a few selected problems graded for correctness.
- **Exams** will be graded mostly as correct or incorrect and feedback provided. Exams may be revised and resubmitted for additional credit. Details in Canvas.
- **Final Exam** will be graded with much consideration to partial credit since there is no possibility to re-work any mistakes.
- **Course Grades** will be determined as described in Canvas.

Policies and Resources

Academic Integrity: Cheating, plagiarism and other forms of academic dishonesty will not be tolerated. Students are expected to be honest and ethical at all times in their pursuit of academic goals. A Student caught cheating, plagiarizing, or otherwise violating the rules for an assignment will receive a grade of 0 on the assignment in question; repeat offenders will receive a grade of F in the course. In either case, a student may be referred to the Dean for academic discipline. No grade of 0 due to academic dishonesty will be dropped or replaced.

Classroom Courtesy: Your interactions with the instructor as well as your fellow classmates should be courteous and respectful at all times. Every student is entitled to learn in an environment free of distractions or disruptions (including phones, headphones, etc.). Students who are disrespectful or disruptive can, and will, be asked to leave. If a student does not leave after being asked they will be dropped from the course and referred to the Dean. **Audio/Video recordings of lecture are prohibited.**

Attendance: Attendance is required and you are responsible for all material covered in class. I expect you to arrive to class on time and stay until class is dismissed. If you miss a class, contact a fellow student to find out what was covered. Also:

- Students who remain enrolled in a class beyond the published withdrawal deadline, as stated in the class schedule, will receive an evaluative letter grade in this course.
- It is the student's responsibility to add, drop, or withdraw from classes before the deadlines stated in the college catalog. You should talk to me before withdrawing.
- Excessive absences may result in being dropped, at the discretion of the instructor.

Tutoring/Additional Help: Please consider the following (free) resources for additional help:

- In Person Tutoring: <https://www.deanza.edu/studentssuccess/mstrc>
- On-line Tutoring: <http://deanza.edu/studentssuccess/onlinetutoring>
- The internet: it is the future (2016), a time when information is literally at our fingertips.

Accommodation of Disability: Students that have any disability, either permanent or temporary, which might affect their ability to perform in this class should contact me immediately. For information or questions about eligibility, support services or accommodations to disability (physical or learning disability) see the contacts below:

- Disability Support Services (DSS): <http://www.deanza.edu/dss>
- Educational Diagnostic Center (EDC): <http://www.deanza.edu/edc>
- HOPE De Anza: <http://www.deanza.edu/hope>

English as a Second Language: ESL students may use a translator and/or dictionary (print only, to be approved by instructor) during exams and quizzes. Please visit the college's Listening and Speaking Center (LSC) for additional resources <http://www.deanza.edu/studentssuccess/lsc/>

Student Learning Outcome(s):

*Graphically, analytically, numerically and verbally analyze infinite sequences and series from the perspective of convergence, using correct notation and mathematical precision.

*Apply infinite sequences and series in approximating functions.

*Synthesize and apply vectors, polar coordinate system and parametric representations in solving problems in analytic geometry, including motion in space.
